Woodland

**Here's to more compliments
and fewer worries.**

There's more than one kind of wonderful.

Woodland Siding comes in double 4.5" traditional for a classic look and 4.5" designer for a more contemporary impression. They both capture the look of natural wood. And they both defy the effects of time and weather.

- **Robust .046" thick panel**
- **Available profiles: D45 and D45D**
- **Offered in 12', 16', and 25' lengths for fewer laps and a more seamless appearance**
- **Beautiful low-gloss woodgrain captures the look of natural wood**

Make a sustainable choice.

Not only is Woodland Siding available in a wide selection of colors, it's also remarkably green. Lightweight, yet durable, it never requires painting or staining. For Woodland, sustainability is a lifestyle, not a fad. From production, which starts in facilities that recycle virtually all scrap materials, to manufacturing, transportation and installation (did we mention no hazardous materials are emitted when it's cut into?) it's a clear frontrunner in the cladding game.

- **Manufactured from recyclable materials**
- **Rivals cedar in overall green performance**
- **1/3 the environmental impact of fiber cement**
