

# COMMUNITY SOLAR HASTINGS-ON-HUDSON

The Hastings-on-Hudson Community Solar project includes approximately 625 kW-DC of solar across two public schools: Hastings High School (1 Mount Hope Blvd) and Hillside Elementary (120 Lefurgy Ave). These community solar systems allow you and your neighbors to receive the benefits of renewable energy without the cost or hassle of installing panels on your own property.

All the solar energy goes into the local grid system and is sold at a 10% discount to subscribers of the project, saving them money on their electricity bills. This project would not have been possible without the close cooperation and support of Mayor Niki Armacost and the Board of Trustees as well as Superintendent McKersie and the Board of Education. Special thanks to HHS students Barney Smith and Erik Ghalib, for their advocacy of the project.

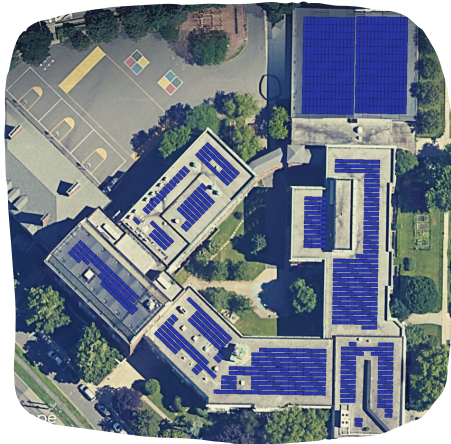

## How do I sign-up?

- 1** Visit the sign-up website or scan QR code - <https://gssolar.powermarket.io/project/hastings-on-hudson-community-solar.html>
- 2** Provide your basic info and Con Edison account number
- 3** Sign your contract

## ANNUAL AVOIDED GREENHOUSE GAS EQUIVALENTS

**125**  
cars

**62,300**  
gallons of gas

**70**  
homes

## OVERVIEW

System Size  
**625 kW-DC**

Type  
**Rooftop**

Expected Date of  
Completion  
**Q1 2024**

Energy Production  
**781,000 kWh/Year**

Annual Emissions Offset  
**554 Metric Tons of CO<sub>2</sub>**

**G&S Solar** is a commercial- and utility-scale solar company that has built over 200 projects, deploying over three-quarters of a billion dollars towards renewable energy since 2010. Our roots extend back to 1982 when G&S Investors was founded as a real estate developer before expanding into the commercial energy sector.
