COURSE DESCRIPTIONS

FALL 2018

3D Printing with Minecraft: Grades 2 – 4

Instructor: The Digital Arts Experience

In this class, students will have projects to create stunning landscapes, architectural structures, buildings and other designs in Creative Mode of Minecraft. Then, students will learn to use a program called “Mineways” in which they will be able to export their designs and 3D Print them to take home! Students will learn about 3D Printing and how to properly & safely use the 3D printer.

Chess: Grades: K – 4

Instructor: Recreation Staff

Learn to play the Royal Game!! This activity is open to all levels of play, from those who know nothing about the game to those who are experienced players. Learn how to move the different pieces and how to develop an opening, mid – game, and end game.

Chocolate Factory: Grades: K – 4

Instructor: Recreation Staff

Children will explore the wonderful world of chocolate and create a variety of delicious treats that may include chocolate dipped strawberries, molded chocolates, brownies, chocolate pudding, mousse, and truffles.

Cooking up a Story: Grades 1 – 4

Instructor: Allergic to Salad

Join Allergic to Salad in these fun, hands-on, from-scratch culinary classes partnered with a food-based storybook. Think: reading *Green Eggs & Ham* and cooking up scrambled eggs turned green from a homemade nut-free pesto or reading *Dragons Love Tacos* and cooking up our own homemade veggie tacos.

Great Inventors: Grades 3 – 4

Instructor: Curious-on-Hudson

Students learn about a wide range of Great Inventors and their inventions and then using raw materials, in the spirit of the Maker Movement, make their own inventions inspired by the inventors and inventions discussed in each class. Curiosity and creativity are celebrated and explored in this class.

Floor Hockey: Grades 1 – 4

Instructor: Recreation Staff

This program introduces the fundamentals of the game through fun games and activities. Children will get a chance to be active and learn the basic rules and skills of floor hockey such as shooting, stick handling and passing.

Fun with Fall Arts and Crafts: Grades K – 4

Instructor: Recreation Staff

Students will enjoy doing fun crafts that will help welcome the Fall. From getting ready for Halloween, the changing of the leaves and getting ready for thanksgiving, students explore all that fall has to offer through fun crafts.

The Magician’s Apprenticeship: Grades 1

– 4

Instructor: Hocus Pocus Magic Shop

Apprentice yourself to a world-class magician! Learn the basics of magic, including cards, coins, ropes and much more. The small group approach to instruction will ensure that you’re on your way to magical fame. Includes all necessary tricks and props, which are yours to keep (retail value \$300).

Outdoor Adventure: Grades 1 – 4

Instructor: Recreation Staff

Get out and enjoy Hillside Woods. Students will go on a scavenger hunt, fishing, hiking, and learn the art of marshmallow roasting! These are just a few of the fun activities they will truly enjoy.

Happy Sewing: Grades: 1 - 4

Instructor: Sew Happy USA

Learn the life skill of sewing while working on a fun, modern and adorable Emoji Pillow themed project. Students will learn the basic techniques of sewing (like threading a needle and tying a knot) and progresses from there. Not only is it great for hand/eye coordination, fine motor skills, focus and concentration, it also gives kids a lifetime vehicle for personal and creative expression!

Wacky Science: Grades K – 4

Instructor: Recreation Staff

Each week students will make some crazy concoctions and silly fun recipes. Some of their creations will be edible, and some will not; all will be fun! Creations will be nontoxic and made with easily found ingredients.

Young Inventors: Grades 1 – 2

Instructor: Curious-on-Hudson

This class integrates the Maker Movement with great inventions. The students will learn about a great invention and will be presented with an open challenge to create their own invention with raw materials. Students will get to explore their own curiosity and build their own project designs.
