COURSE DESCRIPTIONS

Winter 2018

3D Printing with Minecraft Grades 2 – 4 - *Instructor: The Digital Arts Experience*

In this class, students will have projects to create stunning landscapes, architectural structures, buildings and other designs in Creative Mode of Minecraft. Then, students will learn to use a program called "Mineways" in which they will be able to export their designs and 3D Print them to take home! Students will learn about 3D Printing and how to properly & safely use the 3D printer.

Chess Grades K – 4 – *Instructor: Recreation Staff*

Learn to play the Royal Game!! This activity is open to all levels of play, from those who know nothing about the game to those who are experienced players. Learn how to move the different pieces and how to develop an opening, mid-game, and end game.

Cupcake Decorating: Grades: K – 4 – *Instructor: Recreation Staff*

Kids will have the opportunity to decorate cupcakes that resemble animals, food and other designs. Children will combine store bought candy and edible decorations to turn ordinary cupcakes into creative treats.

Fencing: Grades 2–6 - *Instructor: Mio David- Fencing Academy of Westchester*

Join our fencing program and learn about this exciting and noble sport. The fundamentals and rules as well as the parts of the foil, how to hold it and the on-guard stance will be introduced. Classes are taught by using plenty of games to improve speed and coordination, discipline, balance, quick reflexes, mental acuity and good sportsmanship. All equipment provided.

Floor Hockey: Grades 1–4 -*Instructor: Recreation Staff*

This program introduces the fundamentals of the game through fun matches and activities. Children will get a chance to be active and learn the basic rules and skills of floor hockey such as shooting, stick handling, and passing.

Kids Cooking 101: Grades 1 – 4 - *Instructor: Allergic to Salad*

In this interactive hands-on healthy vegetarian series, our little chefs will mix, measure and even CHOP their way to cooking up some amazing culinary delights. We'll put our "Adventurous Eater" hats on to explore potential dishes like: Carrot Cumin Soup, Sushi, Black Bean Breakfast Burritos and more! Our classes create a platform for a lifetime of adventurous eating and purposeful life-skills.

The Magician's Apprenticeship: Grades 1 – 4 - *Instructor: Richie Magic (Hocus Pocus Magic Shop)*

Apprentice yourself to a world-class magician! Learn the basics of magic including cards, coins, ropes and much more. The small group approach to instruction will ensure that you're on your way to magical fame. Includes all necessary tricks and props, which are yours to keep (retail value \$300).

Outdoor Adventure: Grades 1 –4– *Instructor: Recreation Staff*

Get out and enjoy Hillside Woods. Weather permitting students will hike through hillside woods while exploring nature and learning basic cold weather survival skills. Some activities may include first aid training, snow shoeing, building a safe fire, and identifying animal tracks. Students should dress appropriate for cold and snowy weather including wearing boots.

Steam Lab K101: Grades 1 –2 -*Instructor: Curious-on-Hudson*

This is an introduction to science where students get a taste of a variety of themes including life sciences, engineering, mathematics and technology. The class introduces kids to the concept of exploration through experimentation, hands-on labs and observation. Some classes provide a hands-on project some of which will be taken home. All equipment provided.

Steam Up: Grades 3–4 -*Instructor: Curious-on-Hudson*

Hands-on, project based learning module for STEAM classes. Involves topics in chemistry, physics, engineering, computing & technology, and life sciences. Each class involves a challenge to solve and a project to complete. Each class has a driving question to solve through inquiry and solution design. The curriculum is based on NGSS standards.

Wacky Science: Grades K–4 - *Instructor: Recreation Staff*

Each week students will make some crazy concoctions and silly fun recipes. Some of their creations will be edible, and some will not; all will be fun! Creations will be nontoxic and made with easily found ingredients.

Winter Wonderland Workshop: Grades K – 4 – *Instructor: Recreation Staff*

Enjoy the wonders of winter with this crafting workshop. Students will create fantastic and exciting projects, such as custom snow globes and personal snowflake sculptures to bring the feeling of winter indoors.
