Police Chief David Dosin
Alan Golds
Trustee Morgen Fleisig

Absent:
Fire Chief Ronald Paquette
Superintendent of Public Works Michael Gunther
Robert Wilt
Stan Avedon

Minutes from 04.15.2021 meeting were read but not approved as a quorum was not met.

Discussion of Stop Signs at Ravensdale Road and South Clinton Avenue
- The Safety Council discussed placing a stop sign at Ravensdale Road and South Clinton Avenue.
- The consensus of the Safety Council was to push for a comprehensive plan that addresses Ravensdale Road from the newly constructed bridge to Farragut Avenue. The Safety Council recommended a full study once the new bridge is open to best determine traffic calming and pedestrian safety measures.
- The discussion also led into the upcoming redesign of Farragut Avenue by Westchester County, noting the push for the inclusion of a bike lane.

Washington Avenue and Aqueduct Lane – Crosswalk Sign
- It was noted that where Washington Avenue and Aqueduct Lane meet would be a good site for solar powered crosswalk signs, as well as an illuminated sign to help ensure that motorists were aware there was a crosswalk.
- Police Chief Dosin indicated that he will confer with Superintendent of Public Works Michael Gunther.

No Right Turn on Red from Main Street onto Warburton Avenue
- Police Chief Dosin read a letter from a resident concerned with this intersection and the need for motorists to enter the crosswalk to check for oncoming traffic.
- The Safety Council then discussed reconfiguring the existing traffic light and/or conduct a study on the feasibility of making the intersection a three-way stop intersection.

The summer schedule was discussed – a potential meeting for June 2021, but no further meetings until September 2021.
