#### Independent Auditors' Report

To the Honorable Mayor and Board of Trustees of the Village of Hastings-on-Hudson, New York:

We have audited the general purpose financial statements of the Village of Hastings-on-Hudson, New York as of and for the year ended May 31, 1996, as listed in the accompanying table of contents. These general purpose financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Village of Hastings-on-Hudson, New York at May 31, 1996 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

In accordance with government auditing standards, we have also issued a report dated July 11, 1996 on our consideration of the Village of Hastings-on-Hudson, New York's internal control structure and a report dated July 11, 1996 on its compliance with laws and regulations.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying financial information listed as combining and individual fund financial statements and schedules in the table of contents is presented for the purpose of additional analysis and is not a required part of the general purpose financial Such information has been statements of the Village of Hastings-on-Hudson, New York. subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS MAY 31, 1996

### Note 1 - Summary of Significant Accounting Policies

The Village of Hastings-on-Hudson, New York was established in 1879 and operates in accordance with Village Law and the various other applicable laws of the State of New York. The Village Board of Trustees is the legislative body responsible for overall operation. The Village Manager serves as the chief executive officer and the Village Treasurer serves as the chief financial officer. The Village provides the following services to its residents: public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and general and administrative support.

The accounting policies of the Village of Hastings-on-Hudson, New York conform to generally accepted accounting principles as applicable to governments and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Village's more significant accounting policies:

#### A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government which is the Village of Hastings-on-Hudson, b) organizations for which the Village is financially accountable and c) other organizations for which the nature and significance of their relationship with the Village are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth in GASB Statement No. 14.

In evaluating how to define the Village, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Village's reporting entity was made by applying the criteria set forth in GASB Statement No. 14, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements.

#### B. Basis of Presentation

The accounts of the Village are organized and operated on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Village maintains the minimum number of funds consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds. The Village's resources are reflected in the financial statements in five generic fund types within three broad fund categories, as well as two account groups, in accordance with generally accepted accounting principles as follows:

#### Fund Categories

a. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds.

### Note 1 - Summary of Significant Accounting Policies (Continued)

General Fund - The General Fund constitutes the primary operating fund of the Village in that it includes all revenues and expenditures not required by law to be accounted for in other funds.

Special Revenue Funds - Special revenue funds are established to account for the proceeds of specific revenue sources (other than expendable trusts, pension trusts or capital projects) that are legally restricted to expenditures for certain defined purposes. The special revenue funds of the Village are as follows:

Public Library Fund - The Public Library Fund is used to account for the activities of the Village's Public Library.

Pool Fund - The Pool Fund is used to account for the operations of the Village's swimming pool.

Debt Service Fund - The Debt Service Fund is provided to account for the accumulation of resources to be used for the redemption of principal and interest on general long-term debt.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

b. Fiduciary Funds - Fiduciary Funds are used to account for assets held by the Village in a trustee or custodial capacity. Fiduciary funds include Expendable Trust, Pension Trust and Agency funds. Expendable trust funds account for assets held by the Village in accordance with terms of a trust agreement. Pension trust funds account for the service awards program for volunteer firefighters. Agency funds account for assets held by the Village on behalf of others.

## 2. Account Groups

Account groups are used to establish accounting control and accountability for the Village's general fixed assets and general long-term debt.

General Fixed Assets Account Group - This account group is established to account for all fixed assets.

General Long-Term Debt Account Group - This account group is established to account for all long-term obligations.

## C. Measurement Focus/Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types and expendable trust funds are presented using the flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheets. Operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. The reported unreserved fund balance is a measure of "available spendable resources".

VILLAGE OF HASTINGS-ON-HUDSON, NEW YO	DRK
NOTES TO FINANCIAL STATEMENTS (Continue	ed)

MAY 31, 1996

### Note 1 - Summary of Significant Accounting Policies (Continued)

Agency funds are custodial in nature and do not measure results of operations or have a measurement focus.

Pension trust funds are accounted for on the flow of economic resources measurement focus. This measurement focus emphasizes the determination of net income. With this measurement focus, all assets and liabilities (whether current or non-current) associated with the operation of these funds are included on the balance sheet. Pension trust fund operating statements present increases (revenues) and decreases (expenses) in total assets.

The modified accrual basis of accounting is followed in the governmental fund types, expendable trust and agency funds. Under the modified accrual basis of accounting, revenues are recorded in the accounting period in which they are "measurable" and "available" to finance current operations. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Governmental Accounting Standards Board (GASB) has specified the principles to be used in the recognition of real property tax revenue. These principles provide that real property taxes be recognized as revenue only when received in cash during the current period, or soon enough thereafter to be "available" to meet the obligations of the current period. The term "available" has been limited to a period not to exceed sixty days subsequent to the end of the fiscal year unless unusual circumstances are present. A one year availability period is used for revenue recognition for all other governmental and expendable trust fund revenues. Revenues susceptible to accrual include real property taxes, services to other governments, intergovernmental revenues and operating transfers. Permits, fees and other similar revenues are not susceptible to accrual because generally they are not measurable until they are received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made.

Expenditures, under the modified accrual basis, are generally recognized when the related fund liability is incurred. Exceptions to this general rule are (1) unmatured principal and interest on general long-term debt which is recognized as an expenditure when due, (2) certain payments to employee retirement systems which are recorded in the General Long-Term Debt Account Group and recognized as an expenditure when due and (3) compensated absences which are charged to expenditures when paid and recorded in the General Long-Term Debt Account Group.

The accrual basis of accounting is followed in the Pension Trust fund. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred.

## D. Budgetary Data

The Village follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

- a) On or before March 20th, the budget officer submits to the Board of Trustees a tentative operating budget for the fiscal year commencing the following June 1st. The tentative budget includes proposed expenditures and the means of financing them
- b) The Board of Trustees, on or before March 31st, meets to discuss and review the tentative budget.

## Note 1 - Summary of Significant Accounting Policies (Continued)

- c) The Board of Trustees conducts a public hearing on the tentative budget to obtain taxpayer comments on or before April 15th.
- d) After the public hearing and on or before May 1st, the Trustees meet to consider and adopt the budget.
- e) Formal budgetary integration is employed during the year as a management control device for General, Special Revenue and Debt Service funds.
- f) Budgets for General, Special Revenue and Debt Service funds are legally adopted on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. Annual budgets are not adopted for the Fiduciary funds.
- g) The Village Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Board of Trustees. Any modification to appropriations resulting from increases in revenue estimates or supplemental reserve appropriations also require a majority vote by the Board.
- h) Appropriations in General, Special Revenue and Debt Service funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year.

Budgeted amounts are as originally adopted, or as amended by the Board of Trustees. Individual amendments for the current year were not material in relation to the original appropriations which were amended.

#### E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations is generally employed as an extension of formal budgetary integration in the General, Special Revenue and Capital Projects funds. Encumbrances outstanding at year-end are reported as reservations of fund balance since they do not constitute expenditures or liabilities.

## F. Assets, Liabilities and Fund Balances

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with maturities of less than three months.

The Village's investment policies are governed by State statutes. The Village has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Village is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions.

VILLAGE OF HASTINGS-ON-HUDSON, NEW YOR	ł
NOTES TO FINANCIAL STATEMENTS (Continued)	)

MAY 31, 1996

### Note 1 - Summary of Significant Accounting Policies (Continued)

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by federal deposit insurance. The Village has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Investments - All investments are stated at cost or amortized cost.

Taxes Receivable - Real property taxes attach as an enforceable lien on real property as of June 1st and are levied and payable in two installments due in June and December. The Village has the responsibility for the billing and collection of its taxes and also has the responsibility for conducting tax lien sales.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the Village. Receivables are recorded and revenues recognized as earned or as specific program expenditures are incurred.

**Due From/To Other Funds** - During the course of its operations, the Village has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of May 31, 1996, balances of interfund amounts receivable or payable have been recorded.

Prepaid Expenditures - Prepaid expenditures consist of employee retirement costs which have been satisfied prior to the end of the fiscal year, but represent items which have been provided for in the subsequent year's budget and will benefit such periods. Reported amounts are equally offset by a reservation of fund balance which indicates that these amounts do not constitute "available spendable resources" even though they are a component of current assets.

Fixed Assets - Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds and are valued at historical cost or estimated historical cost if actual cost is not available. Donated assets are recorded at their fair market value on the donated. No provision for depreciation is made on general fixed assets. Interest incurred during construction is not capitalized on general fixed assets. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are excluded from general fixed assets since such items are immovable and are of value only to the Village.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included in the General Fixed Assets Account Group.

**Inventories** - There are no inventory values presented in the balance sheets of the respective funds of the Village. Purchases of inventoriable items at various locations are recorded as expenditures at the time of purchase and year-end balances at these locations are not material.

**Deferred Revenues** - Deferred revenues are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The Village has reported deferred revenues of \$63,366 for day camp fees in the General Fund and \$115,947 in the Pool Fund for summer memberships. In addition, deferred real property taxes of \$1,351,549 have been

VILLAGE OF HASTINGS-ON-HUDSON, NEW YOR	K
NOTES TO FINANCIAL STATEMENTS (Continued)	

MAY 31, 1996

### Note 1 - Summary of Significant Accounting Policies (Continued)

reflected in the General Fund. Such amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

Long Term Obligations - The Village records long-term debt of governmental funds at face value in the General Long-Term Debt Account Group. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the General Long-Term Debt Account Group.

Compensated Absences - Vested or accumulated vacation or sick leave of governmental funds that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the respective fund that will pay it. Amounts of vested or accumulated vacation or sick leave of governmental funds that are not expected to be liquidated with expendable available financial resources are reported in the General Long-Term Debt Account Group. No expenditure is reported for these amounts. In accordance with the provisions of Statement No. 16 of the Governmental Accounting Standards Board, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Fund Balances - Reserves and Designations - Portions of fund balance are segregated for future use and are therefore not available for future appropriation or expenditure. Amounts reserved for debt service, encumbrances, prepaid expenditures, expenditures funded by indebtedness, trusts and service awards program represent portions of fund balance which are required to be segregated in accordance with State law or generally accepted accounting principles. Designations of unreserved fund balances in governmental funds indicates the utilization of these resources in the ensuing year's budget or tentative plans for future use.

#### G. Interfund Transactions

Quasi-external transactions are accounted for as revenues or expenditures/expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

#### H. Comparative Data

Comparative total data for the prior year have been presented in the accompanying combined financial statements in order to provide an understanding of changes in the Village's financial position and operations. Certain reclassifications of prior year financial data have been made to conform with the current year presentation.

# 1. Total Columns in General Purpose Financial Statements

Total columns in the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

VILLAG	FOF	HASTI	VGS-ON	1-HUDS	ON.	NEW	YORK
--------	-----	-------	--------	--------	-----	-----	------

### Note 1 - Summary of Significant Accounting Policies (Continued)

#### J. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

# Note 2 - Stewardship, Compliance and Accountability

### **Property Tax Limitation**

The Village is permitted by the Constitution of the State of New York to levy taxes up to 2% of the five year average full valuation of taxable real estate located within the Village, exclusive of the amount raised for the payment of interest on and redemption of long-term debt. In accordance with this definition, the maximum amount of the levy for the 1995-96 fiscal year was \$10,400,439 which exceeded the actual levy by \$5,804,127.

### **Excess of Actual Expenditures Over Budget**

The following capital projects expenditures exceeded their authorized limits as indicated below:

Purchases of Police Radios	\$ 15,614
Street Resurfacing	1,857
Uniontown Playground	2,563

# Note 3 - Detailed Notes on All Funds and Account Groups

#### A. Assets

### Cash and Equivalents

The carrying amount of the Village's deposits at year end was \$836,314, exclusive of petty cash of \$577 and the bank balance was \$927,484. Of the bank balance, \$300,307 was covered by federal deposit insurance and \$627,177 was covered by collateral held by the trust department of the pledging financial institution in the entity's name.

#### Investments

The Village, pursuant to a cooperative investment agreement, temporarily invests available funds in instruments and obligations in which all participants are authorized to invest.

### Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

Total investments of the cooperative at May 31, 1996 were as follows:

Instrument	Interest Rate	Due Date	Cost, which Approximates Market Value
Repurchase Agreements United States Treasuries	5.3%	6/3/96 Various	\$ 452,779,309 188,665,034
United States Government Guaranteed Agencies		6/1/96 and 7/1/96	224,447,903
			\$ 865.892.246

The Village's share of these investments at May 31, 1996 was \$696,096. The repurchase agreements are collateralized at 102% of the value and the collateral is held by a third party in the name of the cooperative.

Additional information concerning the cooperative is presented in the annual report of the Cooperative Liquid Assets Securities System (CLASS).

The assets of the Service Awards Program of \$102,842 are on deposit with an insurance company. The funds are invested along with the company's other assets in a variety of instruments. This investment is uninsured and uncollateralized.

#### **Taxes Receivable**

Taxes receivable at May 31, 1996 consisted of the following:

Current Year	. \$	296,688
Prior Years	_	1,055,387
	\$	1.352.075

#### Due From/To Other Funds

The balances reflected as due from/to other funds at May 31, 1996 were as follows:

	Due		Due To	
		From		10
General Fund	\$	16,623	\$	-
Public Library Fund		2,653		-

# Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

ERS	Tier 1 2 3 4	GTLI .3% .3 .2 .2	Regular 1.5% 1.5 1.6 1.6
PFRS	1	.1	14.4
	2 375i	.1	6.7
	2 384d	.1	9.0

Contributions made to the Systems for the current and two preceding years were as follows:

	 ERS		PFRS	
1996 1995 1994	\$ 28,040 26,713 31,072	\$	33,011 24,726 24,726	

The ERS contribution was equal to the actuarially required amounts. The PFRS actuarial contribution was \$142,840. Of this amount, \$109,829 was offset by funding amortization credits.

The current ERS contribution for the Village was charged to the funds identified below. The current PFRS contribution was charged to the General Fund.

	A	mount
General Fund Public Library Fund Pool Fund	\$	25,029 2,925 86
	<u>\$</u>	28.040

The PFRS System altered its basis for the computation of billings pursuant to Chapter 62 of the Laws of 1989. This modification created two years of unfunded liability. The Village was afforded the opportunity to amortize the liability over a seventeen year period beginning in 1989. Payments would also include interest at 8.75%. The PFRS amount required to be amortized during 1995-96 was \$24,726 which was offset by amounts previously on deposit. The Village elected to make an optional payment of \$31,989, which was charged to General Fund expenditures. Aggregate unfunded obligations of \$150,976 to PFRS have been recorded in the General Long-Term Debt Account Group, since they will be redeemed from future resources or budgets.

### **Compensated Absences**

Pursuant to collective bargaining agreements, police employees may accumulate up to 190 days of sick time and employees of the Department of Public Works may accumulate up to 110 days of sick time. Upon retirement, these employees will be compensated for unused sick time at rates ranging from \$23 to \$28 per day for police employees and \$12 a day for employees of the Department of Public Works. Vacation time for these employees is generally taken in the year earned.

#### Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

All non-union employees will be compensated at their regular rate of pay for unused vacation time upon separation of employment. Non-union employees may accumulate 180 days of sick leave; however, there is no compensation for unused sick time upon separation of service.

Additionally, compensatory time for overtime hours may be accumulated by police employees. At the option of the employee, payment will be made either through additional compensation or compensatory time.

The Village's liability at May 31, 1996 for such sick, vacation and accumulated compensatory time has been recorded in the General Long-Term Debt Account Group in accordance with generally accepted accounting principles, since it will be redeemed from future resources or budgets.

#### **Pension Trust - Service Awards Program**

The Village, pursuant to Article 11-A of General Municipal Law and legislative resolution, has established a Service Awards Program ("Program") for volunteer firefighters. This Program is a single employer defined benefit plan. Active volunteer firefighters, upon attainment of age 18 and completion of one year of service, are eligible to become participants in the Program. Participants are fully vested upon attainment of entitlement age, upon death or upon general disablement and after earning five years of service credit. A participant upon attainment of entitlement age and one year of plan participation shall be able to receive their service award, payable in the form of a tenyear certain and continuous monthly payment life annuity. The monthly benefits are \$20 for each year of service credit, up to a maximum of 20 years. The Program also provides disability and death benefits. The trustees of the Program, which are the members of the Village's Board, are authorized to invest the funds in authorized investment vehicles.

Current membership in the Program is comprised of the following:

Group	May 31, 1996
Retirees and beneficiaries	28
currently receiving benefits	20
Active-nonvested	112

The amount shown below as the "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits estimated to be payable in the future under the Program. This measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the System's funding status on a going concern basis, assess progress being made in accumulating sufficient assets to pay benefits when due and make comparisons among similar programs. The pension benefit obligation was computed as part of an actuarial valuation performed as of May 31, 1996. Significant actuarial assumptions used in the valuation include: a) a rate of return on the investments of 7%, b) all firefighters survive to entitlement age and c) when a firefighter reaches entitlement age, a lump sum is drawn from the trust fund sufficient to purchase a ten year life annuity. There were no significant revisions in benefits, actuarial assumptions or methods during the program year.

NOTES TO FINANCIAL STATEMENTS (Continued)
MAY 31, 1996

### Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

Total unfunded pension benefit obligation applicable to the Program at May 31, 1996 is as follows:

Pension Benefit Obligation: Employer Financed - Nonvested Retirees and Beneficiaries Currently	\$ 822,870
Receiving Benefits	 250,914
At the Australia for Bonefile of Oost	1,073,784
Net Assets Available for Benefits at Cost on May 31, 1996	 102,842
Unfunded Pension Benefit Obligation	\$ 970.942

The Village's obligation to continue funding is governed by New York State Law and Program provisions. Annual contributions to the Program are determined by an actuary and are designed to accumulate sufficient assets to pay benefits when due. Contributions are not required by participants. Since this program is for volunteer firefighters, there are no covered salaries. The actuarial funding method is the attained age normal frozen initial liability cost method. The actuarially determined contribution for the program year ended May 31, 1996, is composed of normal costs of \$34,871 and unfunded prior service costs of \$69,069. These costs totaling \$103,940 were charged to the General Fund expenditures. The amortization period to cover the unfunded prior service costs is ten years. Significant actuarial assumptions used to compute contribution requirements were the same as those used to compute the standardized measure of the pension benefit obligation.

Since the program was initially displayed as a pension trust fund in the 1994-95 fiscal year, prior year historical data pertaining to the pension benefit obligation and the net assets available for benefits are not available. Historical information for the 1994-95 and 1995-96 program years are as follows:

		<u> 1995-96</u>		<u> 1994-95                                     </u>
Pension Benefit Obligation (PBO) Net Assets Available for Benefits (at cost) Net Assets Available for Benefits as a	\$ \$	1,073,784 102,842	\$ \$	1,052,227 57,591
percentage of the PBO Unfunded PBO	\$	9.58% 831,790	\$	5.47% 839,413

## Post-Employment Health Care Benefits

In addition to providing pension benefits, the Village provides certain health care benefits for retired employees. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Village may vary according to length of service. Substantially all of the Village's employees may become eligible for those benefits if they reach normal retirement age while working for the Village. The cost of retiree health care benefits is recognized as an expenditure as claims are paid. During the 1995-96 fiscal year, \$160,642 was paid on behalf of 35 retirees and this amount has been recorded as an expenditure.

NOTES TO FINANCIAL STATEMENTS (Continued)
MAY 31, 1996

# Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

### C. Fund Balances

### Reserved

The Reserve for Debt Service represents a segregation of the fund balance for debt service in accordance with the provisions of the Local Finance Law of the State of New York.

Encumbrances outstanding have been reserved as it is the Village's intention to honor the contracts in process at year-end. The subsequent year's appropriations will be amended to provide authority to complete the transactions.

The Reserve for Prepaid Expenditures has been established to account for retirement payments made in advance. The reserve indicates that these funds are not "available" for appropriation or expenditure even though they are a component of current assets.

The Local Finance Law of the State of New York permits the incurrence of indebtedness for the payment of judgments or claims. The Village of Hastings-on-Hudson, in accordance with provisions of this law, issued bond anticipation notes to be used for the payment of court ordered judgments or claims. These notes are being amortized in accordance with the appropriate sections of Local Finance Law. The bond anticipation notes outstanding at May 31, 1996 will be funded in future years by additional real property taxes. Accordingly, this amount has been segregated in the fund balance section of the financial statements as a Reserve for Expenditures Funded by Indebtedness to reflect a funding from future tax levies, since real property taxes for the payment of indebtedness are not subject to any limitation in the amount which may be raised.

The Reserve for Trusts has been established to set aside funds in accordance with the terms of the grants.

The Reserve for Service Awards Program has been established to set aside the Village contributions necessary to satisfy benefits earned.

# Unreserved - Designated for Subsequent Year's Expenditures

General and Special Revenue Funds - Designations of fund balance are not legally required segregations but represent intended use for a specific purpose. At May 31, 1996, the Village Board has designated that \$120,000 of the fund balance of the General Fund and \$4,075 of the fund balance of the Public Library Fund be used in 1996-97.

# Note 4 - Summary Disclosure of Significant Contingencies

# Litigation

The Village, in common with other municipalities, receives numerous notices of claims for money damages accruing from false arrest, property damage or personal injury. Of the claims currently pending, none are expected to have a material effect on the financial position of the Village, if adversely settled.

There are also currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the Village, if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of the possible refunds cannot be determined at the present time. Any payments resulting from adverse decisions will be funded in the year the payment is made.

The Village commenced an action in the Westchester County Supreme Court seeking to enforce its zoning code and to require defendants to remove demolition and construction debris from property along the waterfront in the Village. The defendants have counterclaimed alleging a deprivation of civil rights and seek \$6 million in damages. In a decision and order entered March 4, 1993, the counterclaim was dismissed. The defendants have appealed the dismissal. The defendants moved for judgment on the pleadings, dismissing the suit in the fall of 1996. On March 7, 1996, the District court granted defendants' motion and dismissed the Village's and River Keeper's actions. Both parties appealed to the Court of Appeals, which will hear oral argument on or after August 5, 1996. The Village's insurance carrier has undertaken defense of the counterclaim and has indicated that the counterclaim is without merit.

## **Risk Management**

The Village purchases various insurance coverages to reduce its exposure to loss. The Village maintains general liability insurance coverage with a policy limit of \$3 million. The public officials liability and auto policies provide coverage up to \$2 million and \$1 million, respectively. The Village also maintains an umbrella policy with coverage up to \$1 million. The Village purchases conventional workers' compensation insurance with coverage at statutory limits. The Village also purchases health insurance from a variety of providers.

### Contingencies

The Village participates in various Federal grant programs. These programs are subject to program compliance audits pursuant to the Single Audit Act of 1984. Accordingly, the Village's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Village anticipates such amounts, if any, to be immaterial.
