INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Board of Trustees of the Village of Hastings-on-Hudson, New York:

We have audited the general purpose financial statements of the Village of Hastings-on-Hudson, New York as of and for the year ended May 31, 1999, as listed in the accompanying table of contents. These general purpose financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Village of Hastings-on-Hudson, New York at May 31, 1999 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

The Year 2000 disclosure is not a required part of the general purpose financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the supplementary information. However we did not audit the information and do not express an opinion on it. In addition, we do not provide assurance that the Village of Hastings-on-Hudson, New York is or will become Year 2000 compliant, that the Village of Hastings-on-Hudson's remediation efforts will be successful in whole or in part, or that parties with which the Village of Hastings-on-Hudson does business are or will become Year 2000 compliant.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying financial information listed as combining and individual fund financial statements and schedules in the table of contents is presented for the purpose of additional analysis and is not a required part of the general purpose financial statements of the Village of Hastings-on-Hudson, New York. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies

The Village of Hastings-on-Hudson, New York was established in 1879 and operates in accordance with Village Law and the various other applicable laws of the State of New York. The Village Board of Trustees is the legislative body responsible for overall operation. The Village Manager serves as the chief executive officer and the Village Treasurer serves as the chief financial officer. The Village provides the following services to its residents: public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and general and administrative support.

The accounting policies of the Village of Hastings-on-Hudson, New York conform to generally accepted accounting principles as applicable to governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Village's more significant accounting policies:

A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government which is the Village of Hastings-on-Hudson, b) organizations for which the Village is financially accountable and c) other organizations for which the nature and significance of their relationship with the Village are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth in GASB Statement No. 14.

In evaluating how to define the Village, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Village's reporting entity was made by applying the criteria set forth in GASB Statement No. 14, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements.

B. Basis of Presentation

The accounts of the Village are organized and operated on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts, which comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Village maintains the minimum number of funds consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of governmental funds not recorded directly in those funds. The Village's resources are reflected in the financial statements in seven generic fund types within two broad fund categories, as well as two account groups, in accordance with generally accepted accounting principles as follows:

1. Fund Categories

a. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds.

NOTES TO FINANCIAL STATEMENTS (Continued) MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

General Fund - The General Fund constitutes the primary operating fund of the Village in that it includes all revenues and expenditures not required by law to be accounted for in other funds.

Special Revenue Funds - Special revenue funds are established to account for the proceeds of specific revenue sources (other than expendable trusts, pension trusts or capital projects) that are legally restricted to expenditures for certain defined purposes. The special revenue funds of the Village are as follows:

Public Library Fund - The Public Library Fund is used to account for the activities of the Village's Public Library.

Pool Fund - The Pool Fund is used to account for the operations of the Village's swimming pool.

Debt Service Fund - The Debt Service Fund is provided to account for the accumulation of resources to be used for the redemption of principal and interest on general long-term debt.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

b. <u>Fiduciary Funds</u> - Fiduciary Funds are used to account for assets held by the Village in a trustee or custodial capacity. Fiduciary funds include Expendable Trust, Pension Trust and Agency funds. Expendable trust funds account for assets held by the Village in accordance with terms of a trust agreement. The Pension Trust Fund accounts for the Village's Fire Service Awards Program. The Agency Fund accounts for assets held by the Village on behalf of others.

2. Account Groups

Account groups are used to establish accounting control and accountability for the Village's general fixed assets and general long-term debt.

General Fixed Assets Account Group - This account group is established to account for all fixed assets.

General Long-Term Debt Account Group - This account group is established to account for all long-term obligations.

C. Measurement Focus/Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types and expendable trust funds are presented using the flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheets. Operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. The reported unreserved fund balance is a measure of "available spendable resources".

| | | | | |

NOTES TO FINANCIAL STATEMENTS (Continued) MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

The Pension Trust Fund is accounted for on the flow of economic resources measurement focus. This measurement focus emphasizes the determination of net income. With this measurement focus, all assets and liabilities (whether current or non-current) associated with the operation of these funds are included on the balance sheet. Pension trust fund operating statements present increases (revenues) and decreases (expenses) in total assets.

The Agency Fund is custodial in nature and does not measure results of operations or have a measurement focus.

The modified accrual basis of accounting is followed in the governmental fund types, expendable trust and agency funds. Under the modified accrual basis of accounting, revenues are recorded in the accounting period in which they are "measurable" and "available" to finance current operations. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. GASB has specified the principles to be used in the recognition of real property tax revenue. These principles provide that real property taxes be recognized as revenue only when received in cash during the current period, or soon enough thereafter to be "available" to meet the obligations of the current period. The term "available" has been limited to a period not to exceed sixty days subsequent to the end of the fiscal year unless unusual circumstances are present. A one year availability period is used for revenue recognition for all other governmental and expendable trust fund revenues. Revenues susceptible to accrual include real property taxes, services to other governments and intergovernmental revenues. Permits, fees and other similar revenues are not susceptible to accrual because generally they are not measurable until they are received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made.

Expenditures, under the modified accrual basis, are generally recognized when the related fund liability is incurred. Exceptions to this general rule are (1) unmatured principal and interest on general long-term debt which is recognized as an expenditure when due, (2) interest on short-term debt which is recognized as an expenditure when due and (3) compensated absences which are charged to expenditures when paid and recorded in the General Long-Term Debt Account Group.

The accrual basis of accounting is followed in the Pension Trust Fund. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred. Employer contributions are recognized when due and the Village has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

D. Budgetary Data

The Village follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

a) On or before March 20th, the budget officer submits to the Board of Trustees a tentative operating budget for the fiscal year commencing the following June 1st. The tentative budget includes proposed expenditures and the means of financing.

NOTES TO FINANCIAL STATEMENTS (Continued)
MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

- b) The Board of Trustees, on or before March 31st, meets to discuss and review the tentative budget.
- c) The Board of Trustees conducts a public hearing on the tentative budget to obtain taxpayer comments on or before April 15th.
- d) After the public hearing and on or before May 1st, the Trustees meet to consider and adopt the budget.
- e) Formal budgetary integration is employed during the year as a management control device for General, Special Revenue and Debt Service funds.
- f) Budgets for General, Special Revenue and Debt Service funds are legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. Annual budgets are not legally adopted for the Fiduciary funds.
- g) The Village Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Board of Trustees. Any modification to appropriations resulting from increases in revenue estimates or supplemental reserve appropriations also requires a majority vote by the Board.
- h) Appropriations in General, Special Revenue and Debt Service funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year.

Budgeted amounts are as originally adopted, or as amended by the Board of Trustees. Individual amendments for the current year were not material in relation to the original appropriations which were amended.

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations is generally employed as an extension of formal budgetary integration in the General, Special Revenue and Capital Projects funds. Encumbrances outstanding at year-end are reported as reservations of fund balance since they do not constitute expenditures or liabilities.

F. Assets, Liabilities and Fund Balances

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with original maturities of less than three months.

The Village's investment policies are governed by State statutes. The Village has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Village is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions.

| | | | · · · · · · · · · · · · · · · · · · · |
| | | | |

NOTES TO FINANCIAL STATEMENTS (Continued) MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by federal deposit insurance. The Village has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Investments - All investments are stated at fair value, which is based upon quoted market prices.

Property Taxes Receivable - Real property taxes attach as an enforceable lien on real property as of June 1st and are levied and payable in two installments due in June and December. The Village has the responsibility for the billing and collection of its taxes and also has the responsibility for conducting in-rem foreclosure proceedings.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the Village. Receivables are recorded and revenues recognized as earned or as specific program expenditures are incurred.

Due From/To Other Funds - During the course of its operations, the Village has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of May 31, 1999, balances of interfund amounts receivable or payable have been recorded.

Inventories - There are no inventory values presented in the balance sheets of the respective funds of the Village. Purchases of inventoriable items at various locations are recorded as expenditures at the time of purchase and year-end balances at these locations are not material.

Fixed Assets - Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds and are valued at historical cost or estimated historical cost if actual cost is not available. Donated assets are recorded at their fair market value on the donated. No provision for depreciation is made on general fixed assets. Interest incurred during construction is not capitalized on general fixed assets. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are excluded from general fixed assets since such items are immovable and are of value only to the Village.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included in the General Fixed Assets Account Group.

Deferred Revenues - Deferred revenues are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The Village has reported deferred revenues of \$84,367 for day camp fees in the General Fund and \$64,532 in the Pool Fund for summer memberships. In addition, deferred real property taxes of \$147,998 have been reflected in the General Fund. Such amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS (Continued) MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

Long Term Obligations - The Village records long-term debt of governmental funds at face value in the General Long-Term Debt Account Group. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the General Long-Term Debt Account Group.

Compensated Absences - Vested or accumulated vacation or sick leave of governmental funds that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the respective fund that will pay it. Amounts of vested or accumulated vacation or sick leave of governmental funds that are not expected to be liquidated with expendable available financial resources are reported in the General Long-Term Debt Account Group. No expenditure is reported for these amounts. In accordance with the provisions of Statement No. 16 of the Governmental Accounting Standards Board, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Fund Balances - Reserves and Designations - Portions of fund balance are segregated for future use and are therefore not available for future appropriation or expenditure. Amounts reserved for debt service, encumbrances, expenditures funded by indebtedness, trusts and employees' pension benefits represent portions of fund balance which are required to be segregated in accordance with State law or generally accepted accounting principles. Designation of unreserved fund balances in governmental funds indicates the utilization of these resources in the ensuing year's budget or tentative plans for future use.

G. Interfund Transactions

Quasi-external transactions are accounted for as revenues or expenditures/expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

H. Comparative Data

Comparative total data for the prior year have been presented in the accompanying combined financial statements in order to provide an understanding of changes in the Village's financial position and operations. Certain reclassifications of prior year financial data have been made to conform with the current year presentation.

I. Total Columns in General Purpose Financial Statements

Total columns in the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTES TO FINANCIAL STATEMENTS (Continued)
MAY 31, 1999

Note 1 - Summary of Significant Accounting Policies (Continued)

J. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Stewardship, Compliance and Accountability

Property Tax Limitation

The Village is permitted by the Constitution of the State of New York to levy taxes up to 2% of the five year average full valuation of taxable real estate located within the Village, exclusive of the amount raised for the payment of interest on and redemption of long-term debt. In accordance with this definition, the maximum amount of the levy for the 1998-99 fiscal year was \$10,126,437 which exceeded the actual levy by \$5,092,235.

Excess of Actual Expenditures Over Budget

The following functional expenditure categories exceeded their authorized budgets by the amounts indicated:

| General Fund | |
|-----------------------------------|-----------|
| Culture and Recreation: | |
| Administration | \$ 561 |

NOTES TO FINANCIAL STATEMENTS (Continued) MAY 31, 1999

Note 2 - Stewardship, Compliance and Accountability (Continued)

Capital Projects Fund Deficit

The undesignated deficit in the Capital Projects Fund of \$1,821,833 arises in part because of the application of generally accepted accounting principles to the financial reporting of such funds. The proceeds of bond anticipation notes issued to finance construction of capital projects are not recognized as an "other financing source". Liabilities for bond anticipation notes payable are accounted for in the Capital Projects Fund. Bond anticipation notes are recognized as revenue only to the extent that they are redeemed. The deficit will be reduced and eliminated as bond anticipation notes are redeemed with funding provided by an operating transfer, or converted to permanent financing. Other deficits, where no bond anticipation notes were issued or outstanding to the extent of the project deficit, arise because of expenditures exceeding current financing on the projects. These deficits will be eliminated with the subsequent receipt or issuance of financing.

Note 3 - Detailed Notes on All Funds and Account Groups

A. Assets

Deposits

The carrying amount of the Village's deposits on the balance sheet at year end was \$1,338,140 exclusive of petty cash of \$577. The bank balance was \$1,433,801. Of the bank balance, \$254,633 was covered by federal deposit insurance and \$1,179,168 was covered by collateral held by the trust department of the pledging financial institutions in the entity's name.

Investments

The Village participates in a cooperative investment pool established pursuant to General Municipal Law. The sponsoring agency of the pool is another governmental unit. The pool is authorized to invest in various securities issued by the United States and its agencies. The Village's share of these investments at May 31, 1999 was \$1,617,272. This amount represents the cost of the cooperative shares and is considered to approximate fair value. These investments are not subject to risk categorization. Additional information concerning the cooperative is presented in the annual report of the Cooperative Liquid Assets Securities System (CLASS).

Investments of the Pension Trust Fund were \$71,892. The funds are held on deposit with an insurance company. The funds are invested along with the company's other assets in a variety of instruments. These investments are not subject to risk categorization.

Taxes Receivable

Taxes receivable at May 31, 1999 consisted of the following:

 Current Year
 \$ 37,104

 Prior Years
 110,894

\$ 147,998

Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

| Purpose | Year of Original Issue | Interest Rate | Amount Out- standing |
|--|--------------------------------------|--------------------------------------|---|
| General Fund: Tax Certiorari Tax Certiorari | 1996 1997 | 3.49% 3.67 | \$ 53,600 142,400 |
| Capital Projects Fund: Computer System Purchase of Bucket Truck Purchase of Sewer Jet Machine Purchase of Sanitation Truck Municipal Building Renovation | 1996 1996 1997 1997 1998 | 3.49 3.49 3.67 3.67 3.35 | 196,000 12,000 72,000 27,184 100,912 1,500,000 |
| | | | 1,712,096 |
| | | | \$ 1,908,096 |

Liabilities for bond anticipation notes are generally accounted for in the Capital Projects Fund. Bond anticipation notes issued for judgments or settled claims are recorded in the fund paying the claim. Principal payments on bond anticipation notes must be made annually. State law requires that bond anticipation notes issued for capital purposes or judgments generally be converted to long-term obligations generally within five years after the original issue date. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

Long-Term Indebtedness

The changes in the Village's long-term indebtedness during the year ended May 31, 1999 are summarized as follows:

| | Balance June 1, 1998 | Addit | ions | Re | eductions | | Balance May 31, 1999 |
|--|--------------------------------|-------|------|----|------------------|-------|----------------------------|
| Serial Bonds | \$ 3,360,117 | \$ | - | \$ | 370,117 | \$ | 2,990,000 |
| Due to Retirement Systems Compensated Absences | 112,995 331,884 | | | | 112,995 4,281 | ***** | 327,603 |
| | \$ <u>3,804,996</u> | \$ | - | \$ | 487,393 | \$ | 3,317,603 |

Additions and reductions to compensated absences are shown net since it is impractical to determine these amounts separately.

Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

Bonds Payable

Bonds payable at May 31, 1999 are comprised of the following individual issues:

\$1,495,500 - 1989 bonds for public improvement purposes, due in annual installments of \$75,000 through June 2000; interest at 6.75%

150,000

\$3,685,000 - 1994 bonds for public improvement purposes, due in annual installments of \$240,000 in July 1999, \$245,000 in July 2000, \$250,000 in July 2001, \$240,000 in July 2002, \$230,000 in July 2003, \$225,000 in July 2004, \$200,000 through July 2006, \$175,000 through July 2008, \$115,000 through July 2012 and \$100,000 through July 2014; interest at rates ranging from 5.375% to 6.0%, depending on maturity

2,840,000

\$ 2,990,000

The annual requirements to amortize all bonded debt outstanding as of May 31, 1999 including interest payments of \$1,074,209 are as follows:

| Year Ended May 31, | Principal | | Interest | Total |
|--|---|-----------|--|--|
| 2000 2001 2002 2003 2004 2005-2009 2010-2014 | \$ 315,000 320,000 250,000 240,000 230,000 975,000 560,000 | \$ | 158,721 140,827 124,790 111,621 98,990 324,634 111,626 | \$ 473,721 460,827 374,790 351,621 328,990 1,299,634 671,626 103,000 |
| 2015 | \$ <u>100,000</u> <u>2,990,000</u> | <u>\$</u> | 3,000 1,074,209 | \$ 4,064,209 |

The above general obligation bonds are direct obligations of the Village for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the Village. The "Amount to be Provided for General Long-Term Debt" represents the amount, exclusive of interest, authorized to be collected in future years from taxpayers and others for liquidation of long-term liabilities.

Pension Plans

The Village of Hastings-on-Hudson, New York participates in the New York State and Local Employees' Retirement System (ERS) and the New York State and Local Police and Fire Retirement System (PFRS) (Systems). These Systems are cost-sharing multiple-employer defined benefit pension plans. The Systems provide retirement, disability and death benefits to plan members. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the Systems. That report may be obtained by writing to the New York State and Local Retirement System, Governor Alfred E. Smith State Office Building, Albany, New York 12224.

Funding Policy - The Systems are non-contributory except for employees who joined ERS after July 27, 1976, who contribute 3% of their salary. Contributions are certified by the State Comptroller and expressed as a percentage of members' salary. Contribution rates are actuarially determined and are based upon membership tier and plan. Contributions consist of a life insurance portion (GTLI) and regular pension contributions. Contribution rates for the plan year ended March 31, 1999 are as follows:

| | Tier/Plan | GTLI | Regular |
|------|----------------------------------|-----------------------|-----------------|
| ERS | 1 75l 2 75l 3 A14 4 A15 | .3% .3 .3 .3 | .3% .3 .3 |
| PFRS | 1 384D 2 375I 2 384D | .1 .1 .1 | .3 .3 .3 |

Contributions made to the Systems for the current and two preceding years were as follows:

| 1999 1998 | ERS | PFRS | |
|--------------|-----------------------|------|---------------|
| | \$ 8,094 19,458 | \$ | 465 85,641 |
| 1997 | 43,594 | | 108,218 |

The current ERS and PFRS contributions were equal to 100% of the actuarially required contributions for each respective year.

The current ERS contribution for the Village was charged to the funds identified below. The current PFRS contribution was charged to the General Fund.

Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

Current membership in the Program is comprised of the following:

| Group | May 31, 1999 |
|-------------------------------------|-----------------|
| Active-vested | 67 |
| Active-nonvested | 35 |
| Retirees and beneficiaries | |
| currently receiving benefits and | |
| terminated employees entitled to | |
| benefits but not yet receiving them | 25 |

The Village is required to contribute the amounts necessary to finance the plan as actuarially determined using the attained age normal frozen initial liability cost method.

Contributions made to the Program for the current and two proceeding program years were as follows:

| 1999 | \$ 100,571 |
|------|---------------|
| 1998 | 107,755 |
| 1997 | 100,417 |

These contributions were equal to 100% of the actuarially required contributions for each respective fiscal year.

C. Revenue and Expenditures

Post-Employment Health Care Benefits

In addition to providing pension benefits, the Village provides certain health care benefits for retired employees. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Village may vary according to length of service. Substantially all of the Village's employees may become eligible for those benefits if they reach normal retirement age while working for the Village. The cost of retiree health care benefits is recognized as an expenditure as claims are paid. During the 1998-99 fiscal year, \$187,823 was paid on behalf of 52 retirees and this amount has been recorded as an expenditure.

D. Fund Balances

Reserved

The Reserve for Debt Service represents a segregation of the fund balance for debt service in accordance with the provisions of the Local Finance Law of the State of New York.

Encumbrances outstanding have been reserved as it is the Village's intention to honor the contracts in process at year-end. The subsequent year's appropriations will be amended to provide authority to complete the transactions.

Note 3 - Detailed Notes on All Funds and Account Groups (Continued)

The Local Finance Law of the State of New York permits the incurrence of indebtedness for the payment of judgments or claims. The Village of Hastings-on-Hudson, in accordance with provisions of this law, issued bond anticipation notes to be used for the payment of court ordered judgments or claims. These notes are being amortized in accordance with the appropriate sections of Local Finance Law. The bond anticipation notes outstanding at May 31, 1999 will be funded in future years by additional real property taxes. Accordingly, this amount has been segregated in the fund balance section of the financial statements as a Reserve for Expenditures Funded by Indebtedness to reflect a funding from future tax levies, since real property taxes for the payment of indebtedness are not subject to any limitation in the amount which may be raised.

The Reserve for Trusts has been established to set aside funds in accordance with the terms of the grants.

The Reserve for Employees' Pension Benefits has been established to set aside the Village contributions necessary to satisfy benefits earned.

Unreserved - Designated for Subsequent Year's Expenditures

General and Special Revenue Funds - Designations of fund balance are not legally required segregations but represent intended use for a specific purpose. At May 31, 1999, the Village Board has designated that \$125,000 of the fund balance of the General Fund and \$11,600 of the fund balance of the Pool Fund be appropriated for the ensuing year's budget.

Note 4 - Summary Disclosure of Significant Contingencies

Litigation

The Village, in common with other municipalities, receives numerous notices of claims for money damages accruing from false arrest, property damage or personal injury. Of the claims currently pending, none are expected to have a material effect on the financial position of the Village, if adversely settled.

There are also currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the Village, if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of the possible refunds cannot be determined at the present time. Any payments resulting from adverse decisions will be funded in the year the payment is made.

Risk Management

The Village purchases various conventional insurance coverages to reduce its exposure to loss. The Village maintains general liability insurance coverage with a policy limit of \$5 million. The public officials liability and auto policies provide coverage up to \$2 million and \$1 million, respectively. The Village also maintains an umbrella policy with coverage up to \$5 million. The Village purchases conventional workers' compensation insurance with coverage at statutory limits. The Village also purchases health insurance from a variety of providers. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 5 - Subsequent Event

On October 19, 1999, the Village renewed its 1997 bond anticipation notes. The notes were issued to finance tax certiorari, a sewer jet machine, and a sanitation truck in the amounts of \$106,800, \$20,388 and \$75,684 respectively. These notes bear interest at 4.08%, 4.51% and 4.51%, respectively and mature October 18, 2000.

REQUIRED SUPPLEMENTARY INFORMATION YEAR 2000 DISCLOSURE MAY 31, 1999

The Village has indicated that it has acquired and installed software which is compliant with Year 2000 requirements. The Village has also indicated that their systems, along with the telephone and other in-house systems, have been tested. The Village does, however, maintain numerous relationships with State agencies, outside vendors, service providers and other parties with and through which it conducts its operations. The Village does not have full and complete information from all such persons regarding the status of implementing Y2K compliance. Any failure by some or all of these persons may have a material negative impact on the Village's operations or financial status, though none is expected at this time.

As a result of the measures stated herein, the Village expects to be fully compliant prior to January 1, 2000 and further expects that its financial and administrative operations will continue without interruption.
