1. All work and operations shall be in accordance with the plans, specifications, any revisions thereto, and the rules and regulations of the Village of Hastings-on-Hudson.

2. The submitted information described here is not guaranteed to be accurate or complete. The Contractor shall verify all existing and proposed elevations in the field. The Contractor shall be responsible for contacting the Underground Facilities Protective Organization pursuant to N.Y.S. Law, 16 NYCRR Code 753.

3. The Contractor shall submit traffic maintenance and staging schemes in writing to the Engineer for approval. All traffic maintenance devices, safe means of pedestrian access to and from all points within the contract limit shall be provided. The Contractor must start any excavation and shall be responsible for the same. The Contractor shall be responsible for the relocation of any utility service line or valve which is in interference with the location of all existing utility lines whether in public right-of-way, in easements, or in private property prior to the Contractor's operation. The Contractor is responsible, at no cost to the Owner, to correct any deleterious water ponding areas.

4. Existing trees shall be preserved and protected wherever possible. Where tree roots cannot be avoided, they shall be cut cleanly. Tree roots shall be kept moist while trenches are open. Existing pavement shall be sawcut in a straight line where it is to be bounded by new pavement. Existing valves and manhole covers to remain shall be adjusted to finished grades where required.

5. The Contractor shall verify all routing and proposed locations in the field.

6. The contractor shall verify all routing and proposed locations in the field. Tree roots shall be kept moist while trenches are open. Existing pavement shall be sawcut in a straight line where it is to be bounded by new pavement. Existing valves and manhole covers to remain shall be adjusted to finished grades where required.

7. The Contractor shall provide the Engineer with a telephone number of the person responsible in the case of an emergency. The contact person shall be available 24 hours a day, 7 days a week. The Contractor shall submit shop drawings for all works to the Engineer. No construction shall be allowed until the shop drawings are approved.

8. All work and operations, including but not limited to sawcutting, trenching, backfilling, compacting, sawing, and cleaning, shall be commenced and conducted in a manner to avoid damage to any facility or work of any public, private, public, or private utility, and their respective privileges and easements.
