INDEPENDENT AUDITOR'S REPORT

To the Mayor and Members
of the Village Board
Village of Hastings-on-Hudson
Hastings-on-Hudson, New York

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the fiduciary fund of the Village of Hastings-on-Hudson, as of and for the year ended May 31, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with accounting principles generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the fiduciary fund of the Village of Hastings-on-Hudson, as of May 31, 2020, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplemental schedules on pages 3 through 16 and 68 through 74 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Hastings-on-Hudson's basic financial statements. The other supplementary information on pages 75 through 77 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The major fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The other supplementary has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2020 on our consideration of the Village's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering Village of Hastings-on-Hudson's internal control over financial reporting.

MANAGEMENT'S DISCUSSION AND ANALYSIS
MAY 31, 2020**

The following is a discussion and analysis of the Village of Hastings-on-Hudson's financial performance for the year ended May 31, 2020. The Village of Hastings-on-Hudson discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Village's financial activity, (c) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

This section is a summary of the Village's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the Village's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The liabilities and deferred inflows of the Village of Hastings-on-Hudson exceeded its assets and deferred outflows at the close of the fiscal years 2020 and 2019 by \$22,890,422 and \$21,931,272, (net position) respectively.
- Revenue, as reflected in the governmental funds statement, increased by \$613,534 compared to the prior year. This increase is primarily attributable to an increase in State and Federal Aid.
- The General Fund ended the year with actual revenues more than the budgeted amounts by \$397,742.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2,110,672 at 12.94% of the total general fund expenditures.
- During the year the fund balance of the General Fund increased by \$285,857.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: MD&A (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Village:

- The first two statements are *government-wide* financial statements that provide both short-term and long-term information about the Village's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the Village, reporting the Village's operations in more detail than the government-wide statements. The fund financial statements concentrate on the Village's most significant funds.
- The *government fund statements* tell how basic services were financed in the short term as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the Village acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Village's budget for the year.

Figure A-1 summarizes the major features of the Village's financial statements, including the portion of the Village's activities they cover and the types of information they contain. The remainder of this overview section of MD&A highlights the structure and contents of each of the statements.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the Village as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Village's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Village's net position and how it has changed. Net Position, the difference between the Village's assets and liabilities, are one way to measure the Village's financial health or position.

- Over time, increases or decreases in the Village's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the Village's overall health, you need to consider additional non-financial factors such as changes in the Village's property tax base and the condition of facilities and infrastructures.

In the government-wide financial statements, the Village's activities are shown as governmental activities. Most of the Village's basic services are included here, such as home and community services, road maintenance, and administration costs. Property taxes and charges for services finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Village's funds, focusing on its most significant or "major" funds - not the Village as a whole. Funds are accounting devices the Village uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The Village establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues.

**VILLAGE OF HASTINGS-ON-HUDSON
HASTINGS-ON-HUDSON, NEW YORK
MANAGEMENT'S DISCUSSION AND ANALYSIS
MAY 31, 2020**

The Village has two kinds of funds:

- **Governmental Funds:** Most of the Village's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, reconciling statements (Statement 4 and Statement 6) have been added to explain the relationship (or differences) between them.
- **Fiduciary Funds-Agency Funds:** The Village acts in an agency capacity for assets that are ultimately transferred to others, such as payroll withholdings. The Village excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE VILLAGE AS A WHOLE

The Village's net position at the fiscal year end is \$(22,890,422). This is a \$959,150 decrease under last year's net position of \$(21,931,272). The following table provides a summary of the Village's net position:

Total costs of services provided by the Village (Figure A-6) for the fiscal years ended May 31, 2020 and 2019 were \$18,241,944 and \$17,440,559, respectively. These costs were offset by charges for services of \$2,120,267, and grants and contributions of \$417,961, resulting in net cost of services of \$15,703,716. This is a \$886,177 increase over last year's total net costs of \$14,817,539.

The Village's governmental funds are reported in the fund statements with a modified accrual basis that uses a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financial requirements. The major governmental funds of the Village consist of the General Fund, Capital Fund, Pool Fund, Library Fund, Special Purpose Fund, and Debt Service Fund. The total fund balances allocated between restricted, assigned, and unassigned fund balance for each of these funds is as follows:

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Village revised the general fund budgets to reflect additional changes in budgeted revenues and expenditures. Actual revenues were more than revised budget estimates by \$397,742 and actual expenditures were \$66,906 less than budgeted expenditures. Figure A-8 summarizes the general funds original and revised budgets, actual expenditures and the variances for the year ended May 31, 2020.

CAPITAL ASSETS

The Village records expenditures for land, buildings, equipment, machinery and infrastructures (roads) as capital assets in the Statement of Net Position. Annual depreciation expense is recorded in the Statement of Activities to reflect the use of these assets over their useful lives. Land and construction in progress are not subject to depreciation. The Village's depreciation methods, assumptions regarding useful lives and capitalization thresholds are described in Notes 1 and 5 in the Notes to the Financial Statements.

Under the implementation standards of GASB 34, the Village is considered a small government, and as such is required only to recognize infrastructures on a prospective (going forward) basis. The Village has maintained detailed, separate records of infrastructure additions since 2003. The Village has elected to include infrastructure additions since 2003 in the capital assets section of the Statement of Net Position, as management believes their inclusion provides the reader with a more complete accounting of the Village's investment in capital resources.

In 2020, the Village expended \$1,445,617 on capital additions. Figure A-9 reflects the changes in net capital assets.

HASTINGS-ON-HUDSON, NEW YORK
NOTES TO FINANCIAL STATEMENTS
MAY 31, 2020**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Village of Hastings-on-Hudson have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

A. Financial Reporting Entity

The Village of Hastings-on-Hudson, which was incorporated in 1879, is governed by the laws of the State of New York and various local laws and ordinances. The Board of Trustees is the legislative body responsible for overall operations, the Mayor serves as Chief Executive Officer and the Village Manager serves as Chief Fiscal Officer.

The Village provides the following principal services: general administration, police protection, transportation (streets and highways), recreation, planning and zoning, public improvements, library and other home and community services.

All governmental activities and functions performed for the Village of Hastings-on-Hudson are its direct responsibility. No other governmental organization has been included or excluded from the reporting entity.

The financial reporting entity consists of the following, as defined by Governmental Accounting Standards Board (GASB) Statement #14, "The Financial Reporting Entity:"

1. The primary government which is the Village of Hastings-on-Hudson.
2. Organizations for which the primary government is financially accountable, and;
3. Other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's general purpose financial statements to be misleading or incomplete.

The decision to include a potential component unit in the reporting entity is based on the criteria set forth in GASB Statement #14, including legal standing, fiscal dependency, and financial accountability.

Based on the application of the above criteria, no other entities are included in the reporting entity.

B. Basis of Presentation

1. Government-wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the Village's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Government activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Village's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund statements provide information about the Village's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major Governmental Funds, each displayed in a separate column.

The Village of Hastings-on-Hudson reports the following major Governmental Funds:

- **General Fund:** This is the Village's primary operating fund. It accounts for all financial transactions that are not required by law or other provision to be accounted for in other funds.
- **Library Fund:** The Library fund is used to account for the operations of the Village's Library.

- **Special Revenue Funds:** Special revenue funds are established to account for the proceeds of specific revenue sources that are legally restricted to expenditures for defined purposes. The special revenue funds of the Village are as follows:

Pool Fund – The Pool fund is used to account for the operations of the Village’s swimming pool.

Special Purpose Fund – The Special Purpose fund is used to account for assets held by the Village in accordance with the terms of a trust agreement.

- **Capital Projects Fund:** Established to account for capital improvements financed from current monies transferred from other funds, federal and state grants and proceeds of obligations.
- **Debt Service Fund:** The Debt Service fund is provided to account for the accumulation of resources to be used for the redemption of principal and interest on long-term debt.

The Village reports the following fiduciary funds:

- **Agency Fund:** The Agency fund accounts for employee payroll tax withholdings and deposits that are payable to other jurisdictions or individuals.
- **Service Award Program:** The Service award Program fund accounts for the Village’s Fire Service Awards Program.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the Village gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, revenues are recorded when measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Material revenues that are accrued include real property taxes, state and federal aid, sales tax and certain user charges. If expenditures are the prime factor for determining eligibility, revenues from federal and state grants are accrued when the expenditure is made.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

D. Property Taxes

Village real property taxes are levied annually no later than June 1st, and become a lien on November 1st. Taxes are collected during the period June 1 to October 31.

E. Budgetary Data

1. Budget Policies - The budget policies are as follows:

- a. No later than March 20, the budget officer submits a tentative budget to the Village Board for the fiscal year commencing the following June 1. The tentative budget includes proposed expenditures and the proposed means of financing for all funds except for capital projects fund and community development fund.
- b. After public hearings are conducted to obtain taxpayer comments, no later than April 15, the Village Board adopts the budget by May 1.
- c. All modifications of the budget must be approved by specific action of the Village Board.

2. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriations, is employed in all funds. Encumbrances are reported as reservations of fund balances since they do not constitute expenditures or liabilities. Expenditures for such commitments are recorded in the period in which the liability is incurred.

3. Budget Basis of Accounting

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the current year are increased by the amount of encumbrances carried forward from the prior year.

Budgetary controls for special grant funds are established in accordance with the applicable grant agreements which cover, in most cases, a period other than the Village's fiscal year.

F. Cash and Investments

The Village of Hastings-on-Hudson's investment policies are governed by State statutes. In addition, the Village of Hastings-on-Hudson has its own written investment policy. Village of Hastings-on-Hudson's monies must be deposited in FDIC insured commercial banks or trust companies located within the State. The treasurer is authorized to use demand accounts and certificates of deposit.

Collateral is required for demand deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities.

Deposits and investments at year-end were entirely covered by Federal Insurance or by collateral held by the Village's custodial bank in the Village's name.

G. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material. All receivables are expected to be collected within the subsequent fiscal year.

H. Due To/From Other Funds

Amounts due to and due from within the same fund type have been eliminated in the Government-wide statements. A detailed description of the individual fund balances is provided subsequently in these notes.

I. Inventories and Prepaid Items

Purchases of inventorable items are recorded as expenditures in the Government Funds at the time of purchase. Inventory-type items are considered immaterial and, consequently, are not provided in the government-wide statements.

Prepaid items represent payments made by the Village for which benefits extend beyond year-end.

J. Capital Assets

Capital assets are reported at historical costs. The Village depreciates capital assets using the straight-line method over the estimated useful life of the assets. Capitalization thresholds (the dollar value above which capital asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	Capitalization Threshold	Estimated Useful Life
Land Improvements	\$ 5,000	20 years
Buildings and Improvements	5,000	20-50 years
Machinery & Equipment	5,000	5-30 years
Infrastructure	5,000	15-65 years

K. Infrastructure

The Village includes long-lived improvements to roads and other infrastructure as capital assets in the government-wide statements. Infrastructures are reported at historical costs and are depreciated using the straight-line method over their estimated useful lives.

Under the implementation standards of GASB 34, the Village is considered a small government, and as such is required only to recognize infrastructures on a prospective basis. Therefore, since the adoption of GASB 34, the Village has not retroactively reported infrastructures.

L. Vested Employee Benefits

The various collective bargain agreements provide for the payment of accumulated vacation and sick time upon separation of service. The liability for such accumulated time is reflected in the government-wide Statement of Net Position as a long-term liability. A liability for these amounts is reported in the governmental funds only if the liability has matured through employee resignation or retirement. The liability for compensated absences includes salary related payments, where applicable.

The Village's employees participate in the New York State Employees' Retirement System and New York State Police and Fire Retirement Systems.

L. Vested Employee Benefits (Continued)

In addition to providing pension benefits, the Village of Hastings-on-Hudson provides health insurance coverage for retired employees. Substantially all of the Village's employees may become eligible for these benefits if they reach normal retirement age while working for the Village. Health care benefits are provided through an insurance company whose premiums are based on the benefits paid during the year for the community. The Village recognizes the cost of providing benefits by recording its share of insurance premiums as an expenditure in the year paid.

M. Unemployment Insurance

Village employees are covered by unemployment insurance. The Village is exempt for federal unemployment insurance tax.

N. Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. The first item is related to pensions reported in the Village-wide Statement of Net Position. The second item is related to other postemployment benefits reported in the government-wide statements. For additional information on deferred outflows related to other postemployment benefits See Note 6. This represents the effect of the net change in the Village's proportion of the collective net pension asset or liability and difference during the measurement period between the Village's contributions and its proportion share of total contributions to the pension systems not included in pension expense. Also, the Village contributions to the pension systems (PFRS and ERS Systems) subsequent to the measurement date. The third item relates to bond refunding.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Village has two items that qualify for reporting in this category. The first item is related to other postemployment benefits reported in the government-wide statements. For additional information on deferred inflows related to other postemployment benefits See Note 6. The second item is related to pensions reported in the Village-wide Statement of Net Position. This represents the effect of the net change in the Village's proportion of the collective net pension liability (ERS and PFRS System) and difference during the measurement periods between the Village's contributions and its proportionate share of total contributions to the pension systems not included in pension expense.

O. Equity Classification

1. Government-wide Statements

In the government-wide statements there are three classes of net position:

Net Investment in capital assets - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted - reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted - reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the Village.

2. Funds Statements

The following is a brief description on the five fund balance classifications that the Village can utilize:

Nonspendable: Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted: Constraints have been imposed on the use of these amounts either (a) externally by creditors, grantors, contributors or laws or regulations of other governments; or (b) by law through constitutional provisions or enabling legislation. The Capital Reserve is made up of \$75,000 reserved for parks and \$65,404 reserved for other purposes.

Committed: Includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees.

Assigned: Includes amounts that are constrained by the Village's intent to be used for specific purposes, but are neither restricted nor committed. Assigned fund balance includes (a) all remaining amounts (except for negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed and (b) amounts in the General Fund that are intended to be used for a specific purpose. Assigned fund balance in the General Fund includes \$117,755 assigned for specific purposes through the issuance of purchases orders that encumbered the budget for the year ended May 31, 2021. This assignment is made when purchase orders are approved by the Purchasing Agent who is designated each year by the Board of Trustees at its annual reorganizational meeting pursuant to the Village's purchasing policy.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Equity Classification (Continued)

2. Funds Statements (Continued)

Unassigned: Includes fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, negative unassigned fund balance is reported.

P. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, it is the Village's policy to apply restricted funds before unrestricted funds, unless otherwise prohibited by legal requirements

Q. Interfund Transfers

The operations of the Village gives rise to certain transactions between funds, including transfers to provide services and construct assets. The amounts reported on the Statement of Revenues, Expenditures and Changes in Fund Balance-Governmental Funds for interfund transfers have been eliminated for the Statement of Activities. A detailed description of the individual fund transfers that occurred during the year is provided subsequently in these notes.

R. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long term assets.

S. New Accounting Standards

GASB has issued Statement 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain provisions in GASB Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The effective dates of certain provisions contained in the several pronouncements were postponed by one year.

**NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL
FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the government-wide statements, certain financial transactions are treated differently. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the government funds.

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities:

Total fund balances of the Village's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the Governmental Fund Balance Sheet.

The basic financial statements contain a detailed reconciliation of the items creating the differences between fund balance reported in the Governmental Fund Statements and Net Position reported on the Statement of Net Position.

1. The costs of building and acquiring capital assets (land, buildings and equipment) financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the Village as a whole, with their original costs capitalized and depreciation expensed annually over their useful lives.

Original Cost of Capital Assets	\$ 44,813,936
Accumulated Depreciation	<u>(22,939,562)</u>
Capital Assets, Net	<u>\$ 21,874,374</u>

2. Interest payable is recognized in the entity wide statements under full accrual accounting. No accrual is recognized in the governmental fund statements for interest that was not paid from current financial resources.

Interest Payable at May 31, 2020	<u>\$ 57,022</u>

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS (Continued)

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities: (Continued)

3. Long-term liabilities are reported in the Statement of Net Position, but not in the governmental funds, because they are not due and payable in the current period. Balances at year-end were:

Bonds and Notes Payable	\$ 9,310,000
Premium on Obligations	186,680
Deferred Outflows of Resources – OPEB	(1,956,411)
Other Postemployment Benefits	34,728,665
Deferred Inflows of Resources – OPEB	3,911,959
Compensated Absences	<u>415,511</u>
	<u>\$ 46,596,404</u>

4. In the Statement of Net Position, a liability is recognized for the Village's proportionate share of the net pension liability attributable to each defined benefit pension plan in which the Village participates. A net pension liability is measured as the proportionate share of the portion of the actuarial present value of projected benefit payments that is attributed to past periods of employee service (proportionate share of total pension liability), net of the proportionate share of that pension plan's fiduciary net position. If a pension plan's fiduciary net position exceeds its total pension liability, the Village's proportionate share of the pension plan's net pension asset is recognized. Also, deferred outflows and inflows of resources related to pensions primarily result from contributions subsequent to the measurement date, as well as changes in the components of the net pension liability or asset. However, none of these amounts are included on the Balance Sheet as they are only recognized to the extent the pension liability is normally expected to be liquidated with expendable available financial resources. These balances at May 31, 2020 were as follows:

Deferred Outflows of Resources – Pension	\$ 3,958,064
Net Pension Liability, Proportionate Share (ERS & PFRS)	(6,420,494)
Deferred Inflows of Resources – Pension	<u>(190,679)</u>
	<u>\$ (2,653,109)</u>

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS (Continued)

B. Explanation of Difference between Governmental Funds Operating Statement and the Statement of Activities:

Differences between the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of five broad categories. The amounts shown below represent these differences as follows:

- Long-term revenue differences arise because Governmental Funds report revenues only when they are considered “available”, whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because Governmental Funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.
- Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.
- Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the Governmental Fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.
- Pension plan transaction differences occur as a result of changes in the Village’s proportion of the collective net pension asset/liability and differences between the Village’s contributions and its proportionate share of the total contributions to the pension systems.
- Other Postemployment Benefit (OPEB) related differences occur as a result of changes in the Village’s total OPEB liability and differences between the Village’s contributions and OPEB expense.

The basic financial statements contain a detailed reconciliation of the items creating the differences between the change in fund balance reported in the Governmental Fund Statements and the change in net position reported in the Statement of Activities.

B. Explanation of Difference between Governmental Funds Operating Statement and the Statement of Activities: (Continued)

Explanation of Differences between Governmental Funds Operating Statement
and the Statement of Activities and Changes in Net Position

Total Revenue and other Funding Sources:

Total revenues and other sources governmental funds (Statement 5)	\$ 17,277,462
Unearned Tax Revenue	5,332

Total Revenue of Governmental Activities (Statement 2)	\$ 17,282,794
--	---------------

Total Expenditures/Expenses:

Total expenditures reported in governmental funds (Statement 5)	\$ 18,010,171
---	---------------

In the Statement of Activities, certain operating expenses (compensated absences) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). The liability for compensated absences decreased by \$248,124 during the year.

(248,124)

In the Statement of Activities, the expense for other postemployment benefits (OPEB) includes the changes in the OPEB liability such as service cost, interest cost and changes in benefit terms, as well as amortization of deferred outflows of resources and deferred inflows of resources related to OPEB. In the governmental funds, however, OPEB expenditures are measured by the amount of financial resources used (essentially the amount actually paid). This is the amount by which OPEB expense in the Statement of Activities exceeded the amount of financial resources used during the year.

652,591

When purchase or construction of capital assets is financed through governmental funds, the resources expended for those assets are reported as expenditures in the years they are incurred. However, in the Statement of Activities, the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital expenditures of \$1,445,617 is more than depreciation of \$1,251,152 in the current year.

(194,465)

(Increases) decreases in proportionate share of net pension asset/liability reported in the Statement of Activities do not provide for or require the use of current financial resources and therefore are not reported as revenue or expenditures in the governmental funds(PFRS of \$619,627 and ERS of \$541,743)

NOTE 6. LIABILITIES

A. Short-Term Debt

Liabilities for bond anticipation notes (BAN's) are generally accounted for in the Capital Projects Fund. The notes or renewal thereof may not extend more than five years beyond the original date of issue unless a portion is redeemed within five years and within each 12 month period thereafter.

State law requires that BAN's issued for capital purposes be converted to long-term obligations within five years after the original issue date. However, BAN's issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made. These temporary funds were borrowed to assist with financing the renovation and construction of various projects. The following is a list of outstanding BANS at the Village of Hastings-on-Hudson for the year ending May 31, 2020.

General Information about the OPEB Plan

Plan Description – The Village’s defined benefit OPEB plan (“the Village’s OPEB plan”), provides OPEB for all permanent full-time general and public safety employees of the Village. The Village’s OPEB plan is a single-employer defined benefit OPEB plan administered by the Village.

Benefits Provided – The Village’s OPEB plan provides healthcare benefits for retirees and their dependents.

Medical Benefits Program:

The Plan is a fully insured plan. Current retiree premium rates provided by the Village include:

- | | |
|----------------------------|------------------------------|
| a) Individual Pre-age 65: | Generally \$1,043 per month. |
| b) Family Pre-age 65: | Generally \$2,413 per month. |
| c) Individual Post-age 65: | Generally \$403 per month. |
| d) Family Post-age 65: | Generally \$1,134 per month. |

Adjustments to these premium rates to reflect the difference between the pre-age 65 active/retiree group (for which the current premium rates were based on) and the pre-age 65 retiree only group, were required in accordance with ASOP 6.

Medicare Part B Premiums:

Paid by the Village at \$135.50/mo.

Minimum eligibility requirements for other postemployment benefits are as follows:

- General: An employee must retire after age 55 with at least 20 years of service.
- Police Officers: An employee must retire with at least 20 years of service (no age requirement)

Village Subsidy:

The Village will contribute 100% of the NYSHIP/State Empire medical premium amounts for both individual and family (dependent) coverage.

Funding Policy:

The employer's funding policy is to contribute the current annual premium (net of employee contributions) for all retired participants (i.e., pay as you go). Current New York State law prohibits municipalities from pre-funding retiree medical benefit obligations in a Trust, although pre-funding moneys can arguably be "set aside" on the municipality's balance sheet.

Employees Covered by Benefit Terms – At May 31, 2020, the following employees were covered by the benefit terms

Inactive employees or beneficiaries currently receiving benefit payments	50
Active employees	<u>57</u>
Total Employees Covered by Benefit Terms	<u><u>107</u></u>

Total OPEB Liability

The Village's total OPEB liability of \$34,728,665 was measured as of May 31, 2020, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the May 31, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	6/1/2019 (5/31/2019 census)
Projected Salary Increases	3% per annum
Discount Rate	2.63% (1.63% and 3.63% are illustrated for sensitivity)
Rate of Inflation	3% per annum
Mortality	RP-2014 mortality table, MP-2016 projection
Withdrawal	Sarasson T-5 Table
Asset Valuation Method	Market value
Healthcare cost trend rates	8% decreasing to 5% ultimate
Marriage Rate	Wife is assumed to be same age as the husband. 70% of males and 50% of females are assumed married.
Participation Rate	100% of eligible retirees expected to participate.
Amortization Basis	For experience gains/losses, over the average expected future working lifetime of the active group.

D. Service Award Program

The Village pursuant to Article 11-A of General Municipal Law and legislative resolution, has established a Service Award Program ("Program") for volunteer firefighters, upon attainment of age 18 and completion of one year of service, are eligible to become participants in the Program. Participants are fully vested upon attainment of entitlement age, upon death or upon general disablement and after earning five years of service credit. A participant upon attainment of entitlement age and one year of plan participation shall be able to receive their service award, payable in the form of a ten-year certain and continuous monthly payment life annuity. The monthly benefits are \$20 for each year of service credit, up to a maximum of 20 years. The Program also provides disability and death benefits. The trustees of the Program, which are members of the Village's Board, are authorized to invest the funds in other investment vehicles. Separate financial statements are not issued by the program.

Current membership in the Program is comprised of the following:

<u>Group</u>	<u>May 31, 2020</u>
Active Members	102
Vested – Terminated	47
Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	25

The Village is required to contribute the amounts necessary to finance the plan as actuarially determined using the entry age normal frozen initial liability cost method. The Plan was established effective June 1, 1993. The Plan was amended January 1, 2007 to allow participants to earn service credit after entitlement age. The balance of the unfunded actuarial accrued liability is \$1,003,904, which resulted from the prior years' service cost when the plan was initially adopted. The remaining amortization period is 14 years. The assumed investment rate of return is 4.75% and there are no cost of living adjustments.

NOTE 7. PENSION PLANS

Plan Description

The Village participates in the New York State and Local Employees' Retirement System (ERS). ERS and the New York State and Local Police and Fire Retirement System (PFRS) which are collectively referred to as New York State and Local Retirement System (the ERS System). These are cost-sharing multiple-employer defined benefit retirement systems. The net position of the ERS System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in fiduciary net position allocated to the ERS System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the ERS System. The Comptroller is an elected official determined in a direct statewide election and serves a four-year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November, 2014, he was elected for a new term commencing January 1, 2015. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Village also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. Separately issued financial statements for the System can be accessed on the Comptroller's website at www.osc.state.ny.us/retire/about_us/financial_statements_index.php.

ERS and PFRS Benefits Provided

The ERS System provides retirement benefits as well as death and disability benefits.

Tiers 1 and 2

Eligibility: Tier 1 members, with the exception of those retiring under special retirement plans, must be at least age 55 to be eligible to collect a retirement benefit. There is no minimum service requirement for Tier 1 members. Tier 2 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of final average salary for each year of service. Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months.

Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 1 members who joined on or after June 17, 1971, each year of final average salary is limited to no more than 20 percent of the previous year. For Tier 2 members, each year of final average salary is limited to no more than 20 percent of the average of the previous two years.

Tiers 3, 4, and 5

Eligibility: Tier 3 and 4 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. Tier 5 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5 percent of final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits.

NOTE 7. PENSION PLANS (Continued)

ERS and PFRS Benefits Provided (Continued)

Tiers 3, 4, and 5 (Continued)

Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 3, 4 and 5 members, each year of final average salary is limited to no more than 10 percent of the average of the previous two years.

Tier 6

Eligibility: Tier 6 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63 for ERS members and 62 for PFRS members.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75 percent of final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2 percent of final average salary is applied for each year of service over 20 years. Tier 6 members with 10 or more years of service can retire as early as age 55 with reduced benefits.

Final average salary is the average of the wages earned in the five highest consecutive years. For Tier 6 members, each year of final average salary is limited to no more than 10 percent of the average of the previous four years.

Special Plans

The 25-Year Plans allow a retirement after 25 years of service with a benefit of one-half of final average salary, and the 20-Year Plans allow a retirement after 20 years of service with a benefit of one-half of final average salary. These plans are available to certain PFRS members, sheriffs, and correction officers.

Ordinary Disability Benefits

Generally, ordinary disability benefits, usually one-third of salary, are provided to eligible members after 10 years of service; in some cases, they are provided after five years of service.

Accidental Disability Benefits

For all eligible Tier 1 and Tier 2 ERS and PFRS members, the accidental disability benefit is a pension of 75 percent of final average salary, with an offset for any Workers' Compensation benefits received. The benefit for eligible Tier 3, 4, 5 and 6 members is the ordinary disability benefit with the years-of-service eligibility requirement dropped.

NOTE 7. PENSION PLANS (Continued)

ERS and PFRS Benefits Provided (Continued)

Ordinary Death Benefits

Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first \$50,000 of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

Post-Retirement Benefit Increases

A cost-of-living adjustment is provided annually to: (i) all pensioners who have attained age 62 and have been retired for five years; (ii) all pensioners who have attained age 55 and have been retired for 10 years; (iii) all disability pensioners, regardless of age, who have been retired for five years; (iv) ERS recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement. An eligible spouse is entitled to one-half the cost-of-living adjustment amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This cost-of-living adjustment is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed \$18,000 of the annual retirement benefit. The cost-of-living percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor, but cannot be less than 1 percent or exceed 3 percent.

Funding Policy

The Systems are noncontributory, except for employees who joined the Systems after July 27, 1976 and prior to January 1, 2010, who contribute 3% of their salary for the first ten years of membership. For employees who joined after January 1, 2010, employees in NYSERS contribute 3% of their salary throughout their active membership. For NYSERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the NYSERS fiscal year ending March 31. The Village's contributions for the current year and two preceding years were equal to 100% of the contributions required, and were as follows:

	<u>ERS</u>	<u>PFRS</u>
2020	\$ 444,024	\$ 633,428
2019	\$ 427,956	\$ 627,241
2018	\$ 414,274	\$ 594,653

Village contributions made to the Systems were equal to 100% of the contributions required for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At May 31, 2020, the Village reported the following asset/(liability) for its proportionate share of the net pension liability/(asset) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2020 for ERS and PFRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. Village's proportion of the net pension asset/(liability) was based on a projection of the Village's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and PFRS Systems in reports provided to the Village.

NOTE 7. PENSION PLANS (Continued)

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuation used the following actuarial assumptions.

Significant actuarial assumptions used in the valuations were as follows:

	ERS	PFRS
Inflation Rate	2.5%	2.5%
Projected Salary Increases	4.20%	5.00%
Projected Cost of Living Adjustments	1.3%	1.3%
Investment Rate of Return	6.8% compounded annually, net of investment expenses	6.8% compounded annually, net of investment expenses
Decrement	Actuarial experience study for the period April 1, 2010 to March 31, 2015	Actuarial experience study for the period April 1, 2010 to March 31, 2015
Mortality Improvement	Society of Actuaries Scale MP-2018	Society of Actuaries Scale MP-2018

For ERS and PFRS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2018.

For ERS and PFRS, the actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

NOTE 7. PENSION PLANS (Continued)

The long term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

Measurement Date	ERS & PFRS	
	March 31, 2020	
	Target	Long-term
	Allocation	expected real
		rate of return
<u>Asset Class:</u>		
Domestic Equity	36%	4.05%
International Equity	14%	6.15%
Private Equity	10%	6.75%
Real Estate	10%	4.95%
Absolute Return Strategies	2%	3.25%
Opportunistic Portfolio	3%	4.65%
Real Assets	3%	5.95%
Bonds and Mortgages	17%	0.75%
Cash	1%	0.00%
Inflation-indexed bonds	4%	0.50%
Total	<u>100%</u>	

Discount Rate

The discount rate used to calculate the total pension liability was 6.8% for ERS and PFRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the Village's proportionate share of the net pension liability calculated using the discount rate of 6.8% for ERS and PFRS, as well as what the Village's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.8% for ERS and PFRS) or 1-percentage-point higher (7.8% for ERS and PFRS) than the current rate:

	1% Decrease 5.80%	Current Assumption 6.80%	1% Increase 7.80%

NOTE 7. PENSION PLANS (Continued)

Payables to the Pension Plan

For ERS and PFRS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions as of May 31, 2020 represent the projected employer contributions for the period of April 1, 2019 through May 31, 2020 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of May 31, 2020 amounted to \$172,187.

NOTE 8. RISK MANAGEMENT

The Village is exposed to various risks of loss including, but not limited to, torts, thefts of, damage to, or destruction of assets; errors and omissions; injuries to employees; employees health and life; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Management believes such coverage is sufficient to preclude any significant uninsured loss. Judgments and claims are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated.

NOTE 9. CONTINGENCIES

A. Grant Program

The Village has received grants which are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and a request for a return of funds to the Federal and State governments. Based on past audits, the Village administration believes disallowances, if any, will be immaterial

B. Litigation

The Village is party to various legal proceedings which normally occur in the course of governmental operations. The financial statements do not include accrual or provision for loss contingencies that may result from these proceedings. While the outcome cannot be predicted, due to the insurance coverage maintained, the Village believes that any settlement not covered by insurance would not have a material adverse effect on the financial condition of the Village.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the fiduciary funds of Village of Hastings-on-Hudson, as of and for the year ended May 31, 2020, and the related notes to the financial statements, which collectively comprise the Village of Hastings-on-Hudson's basic financial statements and have issued our report thereon dated October 30, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Village of Hastings-on-Hudson's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Village of Hastings-on-Hudson's internal control. Accordingly, we do not express an opinion on the effectiveness of Village of Hastings-on-Hudson's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies, identified as findings 2020-001 and 2020-002.

To the Mayor and Members
of the Village Board of the
Village of Hastings-on-Hudson

Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Village of Hastings-on-Hudson's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED MAY 31, 2020**

SECTION II - FINANCIAL STATEMENT FINDINGS

Finding 2020-001 Limited Segregation of Duties

- Condition: The auditor found instances where segregation of duties was limited. Limitations in control activities may be addressed through additional management oversight. Through interviews with management and staff we were able to satisfy ourselves that direct involvement and knowledge of these activities reduced the potential for errors or irregularities.
- Criteria: Segregation of duties relates to how various duties are assigned to different people within the organization. Generally, the responsibility for authorizing transactions, recording transactions, and maintaining custody of assets should be assigned to different people so that no single person is in a position to both commit and conceal errors, irregularities or fraud.
- Cause: Limited resources and personnel available contribute directly to the level of segregation achieved. Another factor is the organizational structure and the assignment of responsibilities within that structure.
- Effect: The financial statements could have been significantly misstated due to errors or irregularities and fraud or misappropriation could occur and not be detected without adequate segregation of duties and responsibilities.
- Recommendation: We recommend that the management review the responsibilities of business staff, as well as the duties actually being performed currently. This review should focus on segregating the functions for authorizing transactions, recording transactions, and maintaining custody of assets. As part of this review, management should consider whether the current staffing level is sufficient to achieve the desired internal control. It may be necessary to hire additional staff.

Finding 2020-002 Management Oversight and Monitoring

- Condition: The Auditor found instances where oversight and monitoring by management were not documented. Through interviews with management and related personnel we were able to satisfy ourselves that the necessary oversight and monitoring was performed.
- Criteria: Effective internal control over financial reporting requires management oversight and monitoring to establish reasonable assurance that financial reporting is being reliably and accurately completed. Documentation of this oversight and monitoring is necessary to insure that this criteria is met.

HASTINGS-ON-HUDSON, NEW YORK
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED MAY 31, 2020**

SECTION II - FINANCIAL STATEMENT FINDINGS (Continued)

- Cause: These activities are often informal and performed as a part of the overall management of the entity's operations. Management's close involvement in operations will typically identify inaccuracies in financial data.
- Effect: The financial statements could have been significantly misstated without adequate documentation and performance of oversight functions.
- Recommendation: We recommend that management formally document its review of all elements of the financial data reflected in the financial reporting. This would include but not be limited to ledger account reconciliations, journal entries, trial balances, revenue status and budget status reports.

Management has not completed a response to the above findings as of the date of this report. Government Auditing Standards requires management's responses and planned corrective action to be included in this report.
