NOTICE

This application will not be accepted for filing unless accompanied by all necessary papers, plans and data, in accordance with the foregoing and as required by law.

§ 295-82. View Preservation (VP) Districts

- A. *Principal and accessory uses.* Subject to the provisions of Subsection C below, the permitted principal and accessory uses for any lot or parcel in a VP District shall be the same as otherwise permitted in the district in which the lot or parcel is located.
- C. *Approval by Planning Board and Board of Appeals.*
 - (1) No building or structure shall be erected, altered, enlarged or moved in the district unless approved in accordance with the provisions of this section.
 - (2) Every application to permit the erection or exterior alteration of a building or structure in a VP District shall be referred by the Building Inspector to the Planning Board for its report and recommendations as to the best siting, dimensions and configuration of principal and accessory structures so as to cause the least possible obstruction of the view of the Hudson River and the Palisades for neighboring properties and adjacent public property and rights-of-way. The Planning Board shall issue its report and recommendations within 60 days after receipt of the application.
 - (3) After approval by the Planning Board, the plan for erection or exterior alteration of the building or structure shall be referred to the Board of Appeals, which shall conduct a public hearing on the plan. The Board of Appeals shall hold the hearing and render its decision within 60 days after the referral by the Planning Board.
 - (4) Joint notice of both the Planning Board meeting at which the application is to be considered and the Board of Appeals public hearing on the application shall be given at least 14 days before the Planning Board meeting. Notice shall be given as required in § 295-143C. In addition, notice shall be given to the Architectural Review Board and shall be published in a newspaper of general circulation in the Village not less than 10 days before both the Planning Board meeting and the Board of Appeals hearing.

§ 295-146. Variances.

- A. The Board of Appeals, on appeal from the decision or determination of the administrative officer charged with enforcement of this chapter, shall have the power to grant use variances and area variances, as defined herein.
- B. Use variances.
 - 1) "Use variance" shall mean the authorization by the Board of Appeals for the use of land for a purpose that is otherwise not allowed or is prohibited by the applicable zoning regulations.
 - 2) No use variance shall be granted by the Board of Appeals without a showing by the applicant that applicable zoning regulations and restrictions have caused unnecessary hardship. In order to prove such unnecessary hardship, the applicant shall demonstrate to the Board of Appeals that for each and every permitted use under the zoning regulations for the particular district where the property is located:
 - a. The applicant cannot realize a reasonable return, provided that lack of return is substantial as demonstrated by competent financial evidence;
 - b. The alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood;
 - c. The requested use variance, if granted, will not alter the essential character of the neighborhood; and
 - d. The alleged hardship has not been self-created.
 - 3) The Board of Appeals, in the granting of a use variance, shall grant the minimum variance that it shall deem necessary and adequate to address the unnecessary hardship proved by the applicant, and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community.
- C. Area variances.
 - 1) "Area variance" shall mean the authorization by the Board of Appeals for the use of land in a manner that is not allowed by the dimensional or physical requirements of the applicable zoning regulations.
 - 2) In determining whether to grant an area variance, the Board of Appeals shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination, the Board of Appeals shall also consider:
 - a. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance.
 - b. Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance.
 - c. Whether the requested area variance is substantial.
 - d. Whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district.
 - e. Whether the alleged difficulty was self-created, which consideration shall be relevant to the Board of Appeals but shall not necessarily preclude the granting of the area variance.
 - 3) The Board of Appeals, in the granting of an area variance, shall grant the minimum variance that it shall deem necessary and adequate and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community.
- D. Imposition of conditions. The Board of Appeals shall, in the granting of both use variances and area variances, have the authority to impose such reasonable conditions and restrictions as are directly related to and incidental to the proposed use of the property. Such conditions shall be consistent with the spirit and intent of this chapter, and shall be imposed for the purpose of minimizing any adverse impact such variance may have on the neighborhood or community.
